"ELECTROPHILA" is Society of Department of Electronics and Communication Engineering of our college, Krishna Engineering College. The society is for the students who wish to enhance their practical skills in electronics and/ or communication fields. It aims at providing a platform to the innovating students so that their genome ideas can be turned into reality. It also aims to provide an academic platform for the students to have industry interaction as well as interaction with other institutions in the nature of Technical quizzes, paper presentations, seminars, etc.

Electrophila was established in February 2009, with the following objectives.

> To provide support to student members to continuously evolve to meet the changes in the field of Engineering.

> To enlarge the horizon of member students for the new and emerging area related to Electronics and Communication Engineering.

> To impart technical skills to students and make them sensitive and relevant to the changing Industrial, Technological, Social environment and Non-Engineering areas.

Society Position Holders:

S. no.	Name	Role
1.	Prof. A.N.Mishra	Advisor
2.	Mr. Deepak Gupta	Advisor
3.	Ms. Prachi Mohan	Electrophila Coordinator
4.	Mr. Arnab	Electrophila Coordinator
5.	Mr. Teekaram	Administrative Support

The society focuses on developing practical knowledge in the students rather than the traditional theoretical knowledge. It gives an opportunity to the students of all years to make their minor as well as major projects in the field of Electronics & Communications. In spite of being so many B. Tech. / B.E. colleges all over India, very few have been able to produce good engineers to the industry. In the time of such a high competition, it's very necessary for the KECians to be distinctly ahead. The driving thought for society is "The KECians must look distinctly ahead in the crowd."

Following are the main objectives of the society:

> To get the students' innovating ideas implemented.

- ➢ To enhance practical knowledge of the students.
- ➢ To provide different types of training to the students.
- ➢ To organize workshops and seminars by reputed firms in the concerned field.
- ➢ To ready the students and to help them for any event in any tech-fest.
- ➢ To make the students appear distinctly ahead in the crowd of new engineers.
- ➢ To ready the students for today's competitive industrial world.
- ➢ To raise the name of the college to the higher standards.
- ➢ To organize different competitions for the benefit of the students.
- ➢ To inculcate the feeling of Self-Confidence within the students.

Activities in an Academic Session:

The society is functioning since April '09. Different events have been conducted like in technical section: Quiz, treasure hunt, debate, project making technical workshops etc, and in cultural section singing , dancing, Skit, Drawing etc. Details of this semester events are as follow:

Batch	Event Name
1	Turn Coat
2	Jam
3	Group Discussion
4	Singing
5	Skit
6	Electro Architect
7	Socio Smart
8	App Champ
